**RE: NUTRO, INC.
CONDITIONALLY EXEMPT SMALL
QUANTITY GENERATOR
OHD 004 227 757
CUYAHOGA COUNTY
NOV**

Mr. Paul Kruckenberg
Nutro, Inc.
11515 Alameda Drive
Strongsville, Ohio 44149

Dear Mr. Kruckenberg:

Thank you for accompanying me during Ohio EPA's January 31, 2012 inspection of Nutro, Inc. in Strongsville, Ohio. I inspected Nutro to determine its compliance with Ohio's hazardous waste laws as found in Chapter 3734 of the Ohio Revised Code (ORC) and Chapter 3745 of the Ohio Administrative Code (OAC). My inspection included a review of company operations and written documentation. In addition to the inspection for compliance with Ohio's hazardous waste rules, the facility was inspected for compliance with Ohio's universal hazardous waste and used oil rules.

Nutro is a manufacturer of automated equipment used in the coatings industry. Processes include metal forming and equipment assembly. Some painting is done in a paint booth. No plating or other coating is done at the facility. The spent paint and gun cleaner is a hazardous waste (D001, F003) and is generated infrequently at a rate of less than 5 gallons/month. The rate of generation makes Nutro a conditionally exempt small quantity generator of hazardous waste. Nutro also generates a small quantity of used oil and universal waste lamps.

The following violations of Ohio's universal waste rules were found during this inspection.

1. Universal Waste Lamps, OAC 3745-273-13 (D)(1):

Universal waste lamps generated by Nutro must be accumulated in containers or packages that are structurally sound, adequate to prevent breakage, and compatible with contents of the lamps. At the time of my inspection, Nutro was loosely accumulating used lamps in a storage area. This is a violation of OAC 3745-273-13(D)(1). To return to compliance with this rule, indicate in your response that used lamps will be properly containerized while being accumulated and that these containers will be labeled with the words "used lamps" and an accumulation start date.

Mr. Paul Kruckenberg
Nutro, Inc.

2. Universal Waste Lamps, OAC 3745-273-15(B):

Universal waste lamps may be accumulated on site for up to one year. They may be accumulated longer than one year to facilitate proper recovery, treatment, or disposal. You indicated that used lamps were last recycled off site in 2008 and that some of the used lamps had been accumulated longer than one year. As this accumulation in excess of one year was not done to facilitate proper recovery, Nutro is in violation of this rule. To return to compliance, Nutro must ship the accumulated lamps to an approved lamp recycling facility and submit a copy of the associated paperwork with your response to this letter.

Nutro needs to immediately take the necessary measures to return to compliance with Ohio's environmental laws. Within 14 days of receipt of this letter, Nutro is requested to provide documentation to this office, including the steps taken to abate the violations cited above. Documentation of steps taken to return to compliance includes written correspondence, updated policies, and photographs, as appropriate, and may be submitted via the postal service or electronically to tom.roth@epa.ohio.gov.

Please be advised that violations cited above will continue until the violations have been properly abated. Failure to comply with Chapter 3734 of the Ohio Revised Code and rules promulgated thereunder may result in a civil penalty of up to \$10,000 per day for each violation. It is imperative that you return to compliance. If circumstances delay the abatement of violations, Nutro is requested to submit written correspondence of the steps that will be taken by date certain to attain compliance.

Enclosed you will find a copy of the checklists that I completed as a result of the inspection. Should you have any questions, please feel free to call me at (330) 963-1231. You can find copies of the rules and other information on the Division of Materials and Waste Management's web page at: <http://www.epa.state.oh.us/dhwm/>.

Sincerely,

Tom Roth
