Re: **Notice of Violation** of Director's Final Findings Order, September 16, 2009
Village of St. Bernard Landfill, Hamilton County, Ohio

Dear Mr. Burkhardt:

On September 16, 2009, the Director of the Ohio Environmental Protection Agency ("Ohio EPA") issued Director's Final Findings and Orders ("Orders") consensually entered into with the Village of St. Bernard ("Village") to abate to minimize the formation and migration of explosive gas at the St. Bernard Landfill ("Facility") located east of Interstate 75 and south of Bank Avenue in St. Bernard, Hamilton County, Ohio.

Violation of Order 28

Order 28 of the Orders states "...all explosive gas alarms either recalibrated pursuant to Order 24 or installed pursuant to Order 26 shall be recalibrated by Respondent annually upon consent of access by the owner or the tenant...Ohio EPA shall receive a copy of the operation and calibration results not later than seven (7) days after Respondent's receipt of these results."

To date, Ohio EPA has not received a copy of the operation and calibration results for the annual recalibration of the explosive gas alarms pursuant to Order 28. Ohio EPA is not aware that the annual recalibration of the explosive gas alarms for 2011 has occurred at all. Consequently, the residents adjacent to the landfill, who depend on these alarms to protect their families, may be in physical jeopardy due to this failure to comply with the Orders.

Because the Village has to date failed to submit this documentation and thus Ohio EPA is unable to confirm recalibration of the explosive gas alarms has occurred, the Village **is in violation of Order 28** of the Orders.

Please provide a written response within seven (7) days upon receipt of this correspondence to Ohio EPA, DMWM, SWDO regarding a plan and timeline the Village intends to implement to remedy this situation and ensure that this failure does not occur in the future.

IN EDOCS+f

It is imperative that these explosive gas alarms are recalibrated expediently to protect the health and safety of these residents and that this documentation is submitted to Ohio EPA promptly. As stated by the Ohio Department of Health, methane continues to pose a potential physical hazard to the residents living adjacent to the landfill.

Should you have any questions or concerns, please do not hesitate to contact me at (937) 285-6072.

Sincerely,

Holly H. Hillyer
Environmental Specialist
Division of Materials and Waste Management
