**RE: PROFICIENT MACHINING COMPANY, INC., OHD046632196, SQG>NON-GENERATOR,
LAKE COUNTY, NOTICE OF VIOLATION/RETURN TO COMPLIANCE**

Dear Mr. Bennington:

On February 15, 2012, the Ohio Environmental Protection Agency, Division of Materials and Waste Management, conducted a compliance evaluation inspection at Proficient Machining Company, Inc. (PMC), located at 7522 Tyler Blvd., Mentor, Ohio. We inspected PMC to determine its compliance with Ohio's hazardous waste laws as found in Chapter 3734. of the Ohio Revised Code (ORC) and Chapter 3745 of the Ohio Administrative Code (OAC). PMC was represented by you and the Ohio EPA was represented by Paul Dolensky and me.

PMC machines stainless steel and aluminum to customer specifications. During the walk-through of your facility, we observed the following:

- A Magnus parts washer which uses Crystal Clean Premium 142 plus mineral spirits. The mineral spirits is a high flash product; therefore, when no longer useable it is considered a non-hazardous waste.
- Twenty-six, 55-gallon drums. The majority of the drums contained used Trim sol plus water. Two or three of the drums contained the spent 142 plus mineral spirits and several were empty.
- Scrap metal for recycle is collected indoors in Gaylord boxes or 55-gallon drums, and a dumpster located outdoors is used to collect scrap steel.

The inspection included a review of the facility's operations, as well as waste management practices and documentation. Based on our inspection we determined that PMC is a non-generator of hazardous waste.

The following violation of Ohio's used oil rules was found:

1. **OAC 3745-279-22(C)(1); Containers and above ground tanks that are used to store used oil must be labeled with the words, "Used Oil".**

We noted over twenty, 55-gallon drums containing cutting oil and water. The drums were not labeled with the words "Used Oil" as is required by the rule.

On February 17, 2012, I received an email from you with photographs showing that the drums containing used oil had been properly labeled. Based on the photographs submitted by you, PMC has been returned to compliance with the violation. No response to this letter is necessary.

You can find copies of the rules and other information on the division's web page at <http://www.epa.state.oh.us/dmwm.aspx>

Should you have any questions, please feel free to call me at (330) 963-1162 or email me at marlene.kinney@epa.state.oh.us

Comments:
7522 Tyler Blvd. includes several businesses in assigned bays. Proficient Machining Company, Inc. occupies bays B-H. OHD046632196 was assigned to Euclid Motor Rebuilding (EMR) which went out of business in 1998. EMR occupied bays B and C which Proficient moved into once EMR was gone. The ID number should be deactivated since Proficient does not generate hazardous waste. One violation was cited for a used oil violation.
