RE: Construction site inspection, NPDES Permit 1GC03437*AG

Dear Mr. Wiseman:

On Tuesday, April 6, 2010, I inspected the Belmont High school construction site in Dayton to determine compliance with the site's National Pollutant Discharge Elimination System (NPDES) stormwater discharge permit. The inspection involved touring the perimeter of the site, and no on site was contacted.

Based on this cursory review the site did not appear to be in violation of its construction stormwater discharge permit. Note that inspection records and other administrative requirements of the permit were not evaluated.

If you have questions about this letter, I may be reached at 937.285.6442, or via email at chris.cotton@epa.state.oh.us.

Sincerely,

Chris Cotton
Ohio EPA, Division of Surface Water
