Columbus, OH 43215

**Re: Hendron Road Outpost / Franklin County**

Dear Mr. Waite:

This letter is written regarding the storm water inspection and meeting that we conducted along with Brandy Koehler, at Hendron Road Outpost, located at 4801 Hendron Road in Franklin County, on August 19, 2009. The Agency understands that these construction activities are currently covered under the General Storm Water Permit Associated with Construction Activities. The grass filter strip, bio-swale and bio-retention basin were inspected. A summary of the project was provided and sampling results of a similar project were discussed. Thank you for taking the time to discuss the project with me and giving me a tour of the bio-swale. No erosion appeared to be leaving the site and the bio-swale appeared to be removing pollutants from the storm water runoff.

I look forward to working with you in the future and if you have any question(s) regarding this letter or the inspection, please do not hesitate to contact me at our Central District Office at (614) 728-3851.

Sincerely,

Gregory L. Sanders  
Environmental Specialist  
Division of Surface Water  
Central District Office

c: Jeff Bohne, Water Quality Supervisor, DSW/CDO  
Brady Koehler, Franklin County Drainage Engineer
