Re: Storm Water Inspection at Landings at Maple Bay

Dear Mr. Wolney:

This letter is written in follow-up to a construction storm water inspection I conducted at Landing at Maple Bay located at Buckeye Lake, Ohio on July 22, 2009. The purpose of the inspection was to evaluate compliance with the General Storm Water Permit Associated with Construction Activities. During the inspection, I noted the following:

Fill Activities:

- It was brought to my attention of the potential fill activity associated with the intersections of Hunts Landing Road and Lynn Street. Allegations included the illicit discharge of fill materials within a jurisdictional wetland. I understand that the fill placement has been removed and did not witness any illicit fill within the jurisdictional wetlands at this site.

If you have any questions regarding this letter or the inspection, please do not hesitate to contact me at our Central District Office at (614) 728-3844. Follow-up inspections will be conducted to ensure the conditions of the General Permit are continuing to be met.

Sincerely,

Harry Kallipolitis
Storm Water Coordinator
Division of Surface Water
Central District Office
