Mr. Cris Ricker
Graham Packaging Company
170 Stanford Parkway
Findlay, Ohio 45840

Dear Mr. Ricker:

On January 27, 2011, Melissa Boyers and I inspected Graham Packaging Company (hereafter referred to as GPC) located at 170 Stanford Parkway in Findlay, Ohio. The compliance evaluation inspection was completed to determine GPC's compliance with Ohio's hazardous waste laws and regulations as adopted under chapter 3734 of the Ohio Revised Code (ORC) and chapter 3745 of the Ohio Administrative Code (OAC). Our inspection included a tour of facility operations. We also discussed pollution prevention. This letter will explain the violations we found.

GPC manufactures blow molded plastic containers for branded household consumer products as well as food/beverage grade products. GPC has two parts washers which are serviced by Safety Kleen. The parts washer solvent is non-hazardous. GPC also generates used hydraulic oils and oil filters which are recycled by Safety Kleen. Other wastes generated include sandblast grit, shop towels and universal waste lamps. GPC is currently a non-generator of hazardous waste.

The following violations of Ohio's universal waste rules were observed and noted during the inspection:

1) Universal Waste Management, OAC Rule 3745-273-13(D)(1):

Universal waste lamps must be in closed containers which are adequate to prevent breakage.

GPC had open boxes of universal waste lamps. There were also lamps that were not yet in a container.

On January 31, 2011, you submitted photographs showing that the universal waste was put in proper containers. ***Therefore, this violation is considered abated.***

2) Universal Waste Labeling, OAC Rule 3745-273-14(E):

All lamps, containers or packages must be labeled with the words "universal waste lamps", "waste lamps" or "used lamps".

GPC did not have all of the boxed of lamps labeled properly.

On January 31, 2011, you submitted photographs showing that the universal waste was properly labeled "used lamps". ***Therefore, this violation is considered abated.***

3) Universal Waste, Management, OAC Rule 3745-273(D)(2):

Lamps that show evidence of breaking or damage that can cause a release to the environment must be immediately cleaned up and placed into a closed, structurally sound container.

GPC had at least one broken lamp in the storage area where pieces of glass were on the floor.

On January 31, 2011, you submitted photographs showing that the universal waste storage area was cleaned up and all broken bulbs were containerized. ***Therefore, this violation is considered abated.***

4) Universal Waste Employee Training, OAC Rule 3745-273-16:

A small quantity handler of universal waste shall ensure that all employees are thoroughly familiar with proper waste handling and emergency procedures, relative to their responsibilities during normal facility operations and emergencies.

GPC has not ensured that all employees are thoroughly familiar with proper universal waste handling procedures.

A copy of Ohio EPA's universal waste guidance document was given to you at the time of our inspection. On January 31, 2011, you submitted documentation showing that you had trained employees on how to properly manage universal waste. ***Therefore, this violation is considered abated.***

All violations noted during our January 27, 2011 inspection have been abated. No further action is required.

Mr. Cris Ricker

Ohio EPA will issue an EPA ID number to track our inspection activity at GPC. GPC cannot use this number for manifesting hazardous waste shipments. If GPC wants to use an EPA ID number for manifesting and other hazardous waste, used oil or universal waste activities, GPC must complete and submit a Notification of Regulated Waste Activity form (*EPA Form 9029 (Rev. 11/2002)*) to Ohio EPA. This form is available on our Web page at <http://www.epa.ohio.gov/dhwm> or RBP can call the Division of Hazardous Waste Management, Central Office, RIS at (614)644-2977 and we will mail you a copy.

You can find copies of the rules and other information on the division's web page at <http://www.epa.ohio.gov/dhwm>. Ohio EPA also has helpful information about pollution prevention at the following web address: <http://www.epa.ohio.gov/ocapp>

Enclosed you will find a copy of the checklists that Ohio EPA completed during the inspection. Should you have any questions, please feel free to call me at (419) 373-3114.

Sincerely,

Wendy Miller
Division of Hazardous Waste Management
