**Re: Storm Water Inspection at The Market at Hayden's Crossing
Franklin County
Permit #: 4GC02693*AG**

Dear Mr. Bloomfield:

This letter is written in follow-up to a construction storm water inspection by Amber Miller, of the Ohio EPA, at The Market at Hayden's Crossing located on Hayden Run Road on July 20, 2009. The purpose of the inspection was to evaluate compliance with the General Storm Water Permit Associated with Construction Activities. During the inspection, we noted the following:

Sediment and Erosion Controls

- Upon inspection it appeared that there have been no current construction activities at this site. Vegetation has been established sufficient to control erosion. Please ensure that this vegetative cover is maintained.
- It appeared that the sediment and erosion controls were functioning as intended. Please be aware that the General Permit indicates that all controls will be inspected and maintained every seven days or within 24 hours of a precipitation event equal to or greater than 0.5 inches. A log of inspection must be maintained on site for the agency to review.

If you have any questions regarding this letter or the inspection, please do not hesitate to contact me at our Central District Office at (614) 728-3844. Follow-up inspections will be conducted to ensure the conditions of the General Permit are continuing to be met.

Sincerely

Harry Kallipolitis
Storm Water Coordinator
Division of Surface Water
Central District Office
