**Re: Inspection at Clover Groff Run Stream Restoration Project Phase 1  
Permit #4GCD00052\*AG**

Dear Mr. Westall:

This letter is written in follow-up to a construction storm water inspection I conducted at Clover Groff Run Stream Restoration Project Phase 1 located at 3003 Frazell Road in Columbus on April 15, 2010. The purpose of the inspection was to ensure continued compliance with the General Storm Water Permit Associated with Construction Activities. During the inspection, the following items were noted:

**Sediment and Erosion Controls:**

- I noted the flood plain excavation is well ahead of the restoration activities associated with project. I met with Steve Phillips of Oxbow on site. I informed Mr. Phillips to ensure the flood plain excavation is contained with no keyway cuts to drain the area until such time restoration activities advance.
- Mr. Phillips indicated the seeding and mulching activities for the northern portion of Phase One would be nearly completed within seven days.

If you have any questions regarding this letter or the inspection, please do not hesitate to contact me at our Central District Office at (614) 728-3844. Follow-up inspections will be conducted to ensure the conditions of the General Permit are continuing to be met.

Sincerely

Harry Kallipolitis  
Storm Water Coordinator  
Division of Surface Water  
Central District Office
