Re: SP Richards, Franklin County

Dear Mr. Fitch:

This letter is written in follow up to a construction storm water inspection that I conducted at the SP Richards site located at 2410 McGaw Road, on April 20, 2010. The purpose of the inspection was to evaluate compliance with the General Storm Water Permit Associated with Construction Activities. During the inspection, I noted the following:

Sediment and Erosion Controls:

The silt fence needs to be extended to prevent erosion from leaving the site. Storm water is eroding sediment on to McGaw Road in the southwestern part of the project. Please extend the silt fence in this area. Please see attached picture.

If you have any questions regarding this letter or the inspection, please do not hesitate to contact me at our Central District Office at (614) 728-3851.

Sincerely,

Gregory L. Sanders
