Re: Storm Water Inspection at Brandy Mill Estates

Dear Mr. Conie:

This letter is written in follow-up to a construction storm water inspection I conducted at Brandy Mill Estates located in Pataskala, Ohio on April 7, 2010. The purpose of the inspection was to evaluate compliance with the General Storm Water Permit Associated with Construction Activities. During the inspection, I noted the following:

Sediment and Erosion Controls:

- Site currently draining to a centralized sediment pond and appears to be functioning as intended.
- Site remains well protected with temporary cover and remains in compliance to this date.
- Recently, I have noted active lot construction. Please ensure all future land owners file an Individual Lot NOI.

If you have any questions regarding this letter or the inspection, please do not hesitate to contact me at our Central District Office at (614) 728-3844. Follow-up inspections will be conducted to ensure the conditions of the General Permit are continuing to be met.

Sincerely,

Harry Kallipolitis
Storm Water Coordinator
Division of Surface Water
Central District Office
