**Re: Sycamore Run Park Basin and Stream Restoration  
Permit Number 4GC03105\*AG:**

Dear Mr. Weatherholt:

This letter is written in follow up to a construction storm water inspection I conducted at Sycamore Run Park Basin and Stream Restoration located in Gahanna, Ohio on March 22, 2010. The purpose of the inspection was to evaluate compliance with the General Storm Water Permit Associated with Construction Activities. During the inspection, I noted the following:

- **Sycamore Stream Restoration:** The restoration activities appear to be complete (see attached photo). Please continue to monitor the restoration/re-vegetative efforts to ensure a successful establishment of vegetation, sufficient to control erosion.
- **Basin Restoration:** The regional basin restoration also appears complete. Please forward to my attention the design plans for this basin. Specifically, the design criteria as it relates to water quality improvements should be inclusive in this submission. The General Permit as well as your MS4 permit requires specific post construction water quality treatment for the basin.

If you have any questions regarding this letter or my inspection, please do not hesitate to contact me at our Central District Office at 614-728-3844 or email at [harry.kallipolitis@epa.state.oh.us](mailto:harry.kallipolitis@epa.state.oh.us).

Sincerely

Harry Kallipolitis
