Re: House of Blessings Worship Center / Franklin County

Dear Pastor Phillips:

This letter is written in follow up to a construction storm water inspection that I conducted at the House of Blessings Worship Center located at 3633 Big Run South Road on April 9, 2010. The purpose of the inspection was to evaluate compliance with the General Storm Water Permit Associated with Construction Activities. During the inspection, the following was noted:

Sediment and Erosion Controls:

- Construction had started. There were several dirt stockpiles near the entrance of the property. The dirt stockpiles need to be stabilized and to have silt fence place around the stockpiles immediately. Please see attached pictures.
- There is several sections of silt fence that need to be repaired and/or replaced immediately. One section is near the sediment pond and the other section is along the stream downstream of the bridge. Please see attached pictures.

If you have any questions regarding this letter or the inspection, please do not hesitate to contact me at our Central District Office at (614) 728-3851.

Sincerely,

Gregory L. Sanders
