**Re: Franklin International / Franklin County
Industrial Storm Water Permit 4GR00128*DG**

Dear Mr. Cutrell:

This letter is written in regard to the storm water inspection that I conducted at Franklin International, located at 2020 Bruck Road, in Columbus, Ohio. The inspection was conducted on April 6, 2010, to determine compliance with your industrial storm water permit. You stated that your company manufactures adhesives. I did not note any discharges from your facility to a storm water drain or waters of the state and you appear to be in compliance with your permit.

The following items were noted during the inspection:

1. Your company had a storm water pollution prevention plan (SWP3) and a spill prevention plan at the facility. The plans were updated annually or after a change in staff.
2. Unloading is done in a contained area. Most of the unloading areas have secondary containment and under roof.
3. There were several drums stored outside. These drums either need to be stored inside the building or they need to be stored with lids and in secondary containment. Please see attached pictures.

If you have any questions regarding this letter or my inspection, please do not hesitate to contact me at our Central District Office at 614-728-3851.

Sincerely,

Gregory L. Sanders
