**Re: Target Regional Distribution Center T-3804 / Madison County
Industrial Storm Water Permit 4GR00395*DG**

Dear Mr. Brady:

This letter is written in regard to the storm water inspection that I conducted at Target Regional Distribution Center T-3804, located at 1 Walker Way, West Jefferson, Ohio. The inspection was conducted on February 24, 2010, to determine compliance with your industrial storm water permit. I met with Jason Wheeler and Chris Grieser of your company. They stated that your facility is a distribution center for the northeast United States. I did not note any discharges from your facility to a storm water drain or waters of the state and the facility was in compliance with its permit.

The following items were noted during the inspection:

1. The facility was well kept and no staining was noted on the parking or loading/unloading areas.
2. There was truck parking located in the northwest corner of the property on asphalt. Staff did not know if the storm water from this area drained to an oil-water separator. It is recommended that these areas drain to an oil-water separator but it is not required since there was no oil staining in the parking area. However, if it is determined that there is an oil-water separator that serves this area, your company must create a maintenance plan for the separator, i.e., have it routinely pumped out.
3. The outside washing of trailers was discussed with your staff. They stated that this was contracted out and that the storm water drain was plugged and the wash water re-used then hauled off-site. Please continue this practice.

Ted Strickland, Governor
Lee Fisher, Lieutenant Governor
Chris Korleski, Director
