Re: Preliminary Storm Water Inspection at (4GR00394*DG)

Dear Mr. Kirchgessner:

This letter is written in follow-up to a preliminary storm water inspection I conducted at All Foreign Used Auto in Columbus, Ohio on February 25, 2010. This facility is currently covered under the General Storm Water Permit Associated with Industrial Activities. This preliminary inspection entailed the evaluation of materials and or processes exposed to storm water. Based on my preliminary inspection, the following items were noted:

Observations:

- Due to snow covered conditions, minimal observations were made. I have scheduled a complete storm water inspection for this facility on March 30, 2010 starting at 10:00 AM. Please have your Storm Water Pollution Prevention Plan and all monitoring reports available for review.

Storm Water Pollution Prevention Plan (SWPPP):

- A SWPPP must be developed specific for this site. The SWPPP must include a site map which clearly delineates all storm water drainage patterns. All storm water outfalls/discharges from the site must be identified on the SWPPP. All Best Management Practices (BMP's), current and future must be inclusive in the SWPPP and site map. The SWPPP must be reviewed and updated on a yearly basis to reflect any changes at this facility. Guidance documents for preparing a SWPPP can be found at:
