**Re: Coca-Cola North America / Franklin County
Industrial Storm Water Permit 4GR00165*DG**

Dear Mr. Howell:

This letter is written in regard to the storm water inspection that I conducted at Coca-Cola North America, located at 2455 Watkins Road, in Columbus, Ohio. The inspection was conducted on February 18, 2010, to determine compliance with your industrial storm water permit. You stated that you company produces beverages. I did not note any discharges from your facility to a storm water drain or waters of the state. Overall, the facility was very well-kept and there were no chemicals, raw materials or final product stored outside. Since you do not have any exposure to storm water, you may request a No Exposure Certification. This certification would exempt you from an industrial storm water permit. Please see the following on this certification:

No Exposure Certification:

Ohio EPA has adopted the federal "No Exposure Certification" application form and is using the federal guidance document to determine whether facilities are eligible for the no exposure exemption. The "No Exposure Certification" exempts the facility from Storm Water Permitting requirements provided all processes and materials are stored under roof and you qualify in accordance with filing instructions (links) below. Facilities may apply for this exclusion. "No Exposure Certification" guidance, application form and instructions document is available at: http://cfpub.epa.gov/npdes/stormwater/exposure.cfm?program_id=6. Applicants should complete the form according to the instructions in the guidance and mail it to:

Ohio Environmental Protection Agency
Division of Surface Water
Attn: John Morrison
P.O. Box 1049
Columbus, OH 43216-1049

If you qualify for no exposure certification, you are exempt from permit requirements until your facility no longer qualifies for the No Exposure Certification. If your facility changes and can no longer claim no exposure to storm water you must submit the appropriate permit application for storm water discharge. The "No Exposure Certification" must be filled out and submitted every five years.

Additional information regarding "No Exposure Certification"
http://www.epa.state.oh.us/dsw/storm/ind_noexp_cert.aspx.
