**Re: Concord Fabricators / Franklin County
Industrial Storm Water Permit 4GR00463*DG**

Dear Mr. Purdom:

This letter is written in regard to the storm water inspection that I conducted at Concord Fabricators, located at 6511 Seeds Road, in Grove City, Ohio. The inspection was conducted on February 3, 2010, to determine compliance with your industrial storm water permit. You stated that your company produces structural steel. I did not note any discharges from your facility to a storm water drain or waters of the state.

The following items were noted during the inspection:

1. Your raw material storage is under roof. Your final product is stored on truck beds and parked in the rear of the facility.
2. The empty drums stored outside should be closed with a lid and stored upright and preferably under roof. Some drums had spilled a small amount of product on to the ground and stained the pavement. Please see attached pictures.

If you have any questions regarding this letter or my inspection, please do not hesitate to contact me at our Central District Office at 614-728-3851.

Sincerely,

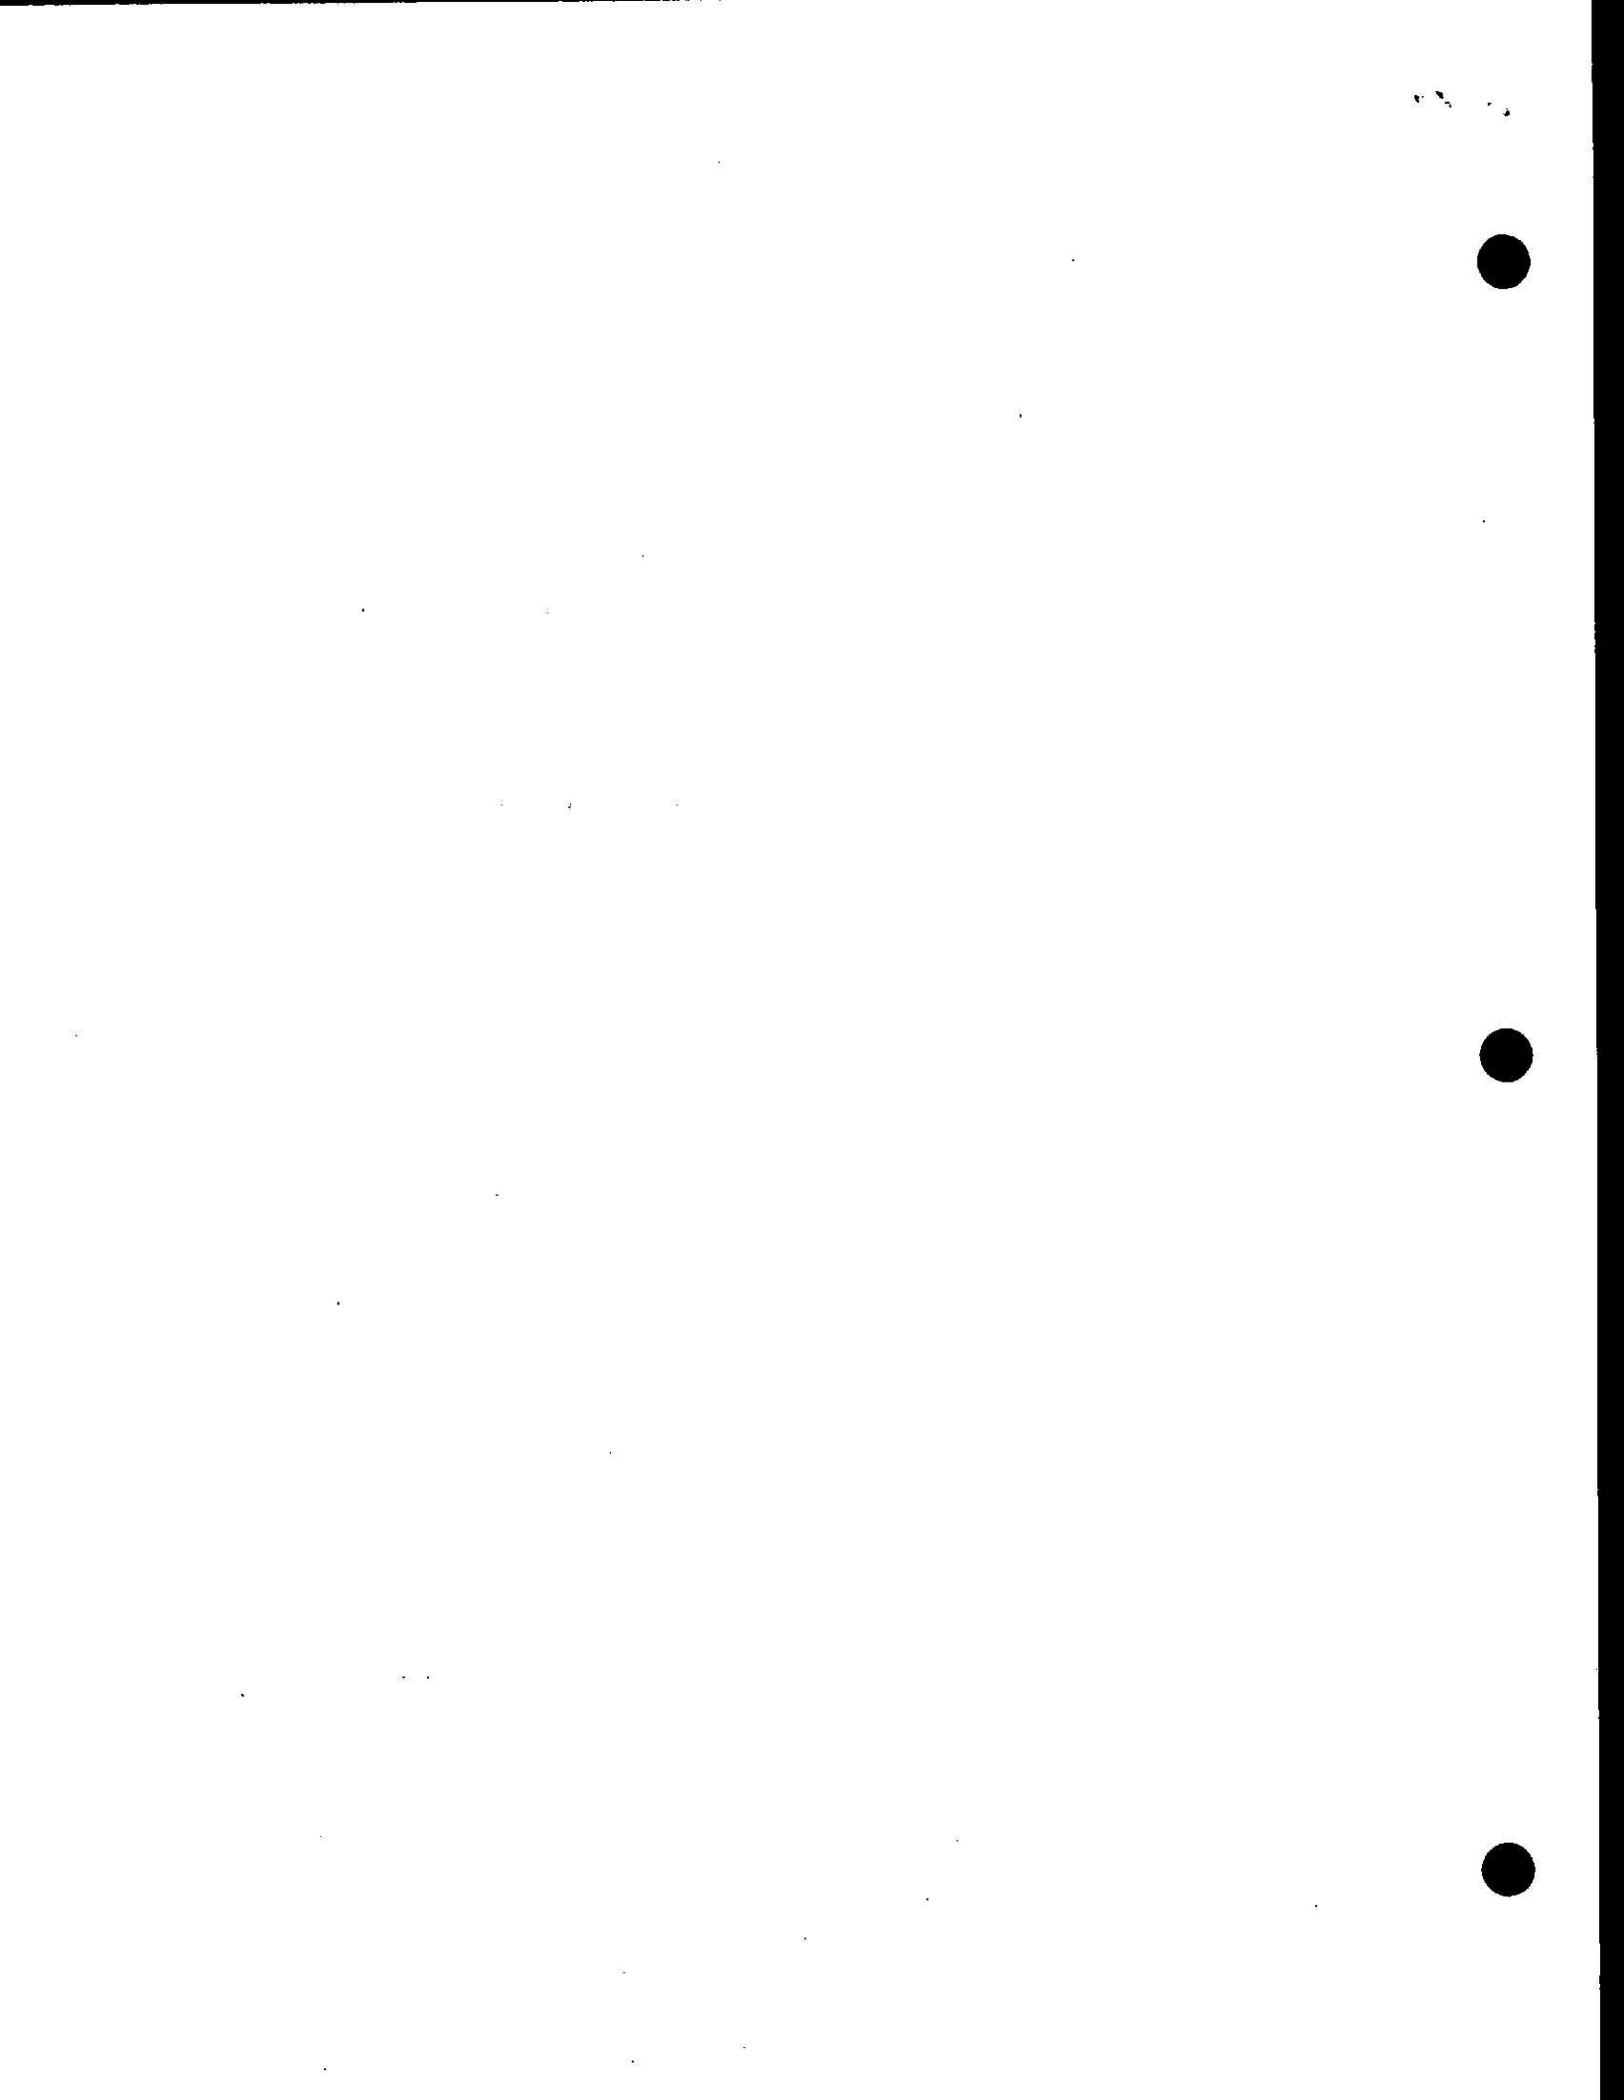

Gregory L. Sanders
