Re: Suburban Village / Pickaway County

Dear Mr. Nguyen:

This letter is written in follow-up to a construction storm water inspection that I conducted at the Suburban Village located at the corner of Jefferson Street and Station Street on October 18, 2010. The purpose of the inspection was to evaluate compliance with the General Storm Water Permit Associated with Construction Activities. During the inspection, the following items were noted:

Sediment and Erosion Controls:

- There were no new homes under construction.
- Sediment needed to be removed from the road near the sediment pond. Also, the dandy bags needed to be maintained. Please see attached pictures.

If you have any questions regarding this letter or the inspection, please do not hesitate to contact me at our Central District Office at (614) 728-3851. Follow-up inspections will be conducted to ensure the conditions of the General Permit are continuing to be met.

Sincerely,

Gregory L. Sanders
Environmental Specialist
Division of Surface Water
