**Re: Construction Storm Water Inspection at Worthington-Galena Road and Worthington Road Improvements / Franklin County
Permit Numbers: 4GC03235*AG**

Dear Mr. Kessler:

This letter is written regarding a storm water inspection I conducted at Worthington-Galena Road and Worthington Road Improvements located at the intersection of Worthington-Galena Road and Lazelle Road in Westerville, Ohio on September 8, 2010. The purpose of the inspection was to evaluate compliance with the General Storm Water Permit Associated with Construction Activities. During the inspection, I noted the following issues associated with construction activities at this site:

Sediment and Erosion Controls:

- I noted that stock piles were surrounded by silt fence, however, there were minimal controls associated with the adjacent stream running through the project.
- Please ensure that any dewatering activities associated with the project do not result in turbid waters entering the waters of the state.

If you have any questions regarding this letter or the inspection, please do not hesitate to call me at our Central District Office at (614) 728-3844 or email at harry.kallipolitis@epa.state.oh.us. In addition, please provide a written response to the action items addressed above within ten days from receipt of this letter. A follow up inspection will be conducted to ensure the minimum conditions of the General Permit have been met.

Sincerely,

Harry Kallipolitis
Storm Water Coordinator
Division of Surface Water
