**Re: Construction Storm Water Inspection at Clover Groff Run Stream Restoration
Project at Latham / Franklin County
Permit Number 4GCD00029*AG**

Dear Mr. Phillips:

This letter is written in follow-up to a construction storm water inspection I conducted at Clover Groff Run Stream Restoration Project located in Scioto and Darby Creek Road Hilliard, Ohio 43026 on August 25, 2010. The purpose of the inspection was to evaluate compliance with the General Storm Water Permit Associated with Construction Activities. During the inspection, I noted the following issues associated with construction activities at this site:

Sediment and Erosion Control:

- The sediment and erosion controls at this site are currently functioning properly. All floodplain excavation is currently contained. Once offsite drainage is established, appropriate sediment controls are expected. Please continue to monitor and ensure continued compliance with the General Storm Water Permit Associated with Construction Activities.

If you have any questions regarding this letter or my inspection, please do not hesitate to contact me at our Central District Office at 614-728-3844 or email at harry.kallipolitis@epa.state.oh.us.

Sincerely,

Harry Kallipolitis
Storm Water Coordinator
Division of Surface Water
Central District Office
