Dear Mr. Kovach:

This letter acknowledges receipt on July 14, 2011 of your correspondence dated July 14, 2011. That correspondence responded to Ohio EPA's NOV letter dated June 24, 2011.

My review of the documentation provided by this correspondence, which included a plan to restrict and phase-out usage of 49 ER solvent and photos of containers of universal waste used fluorescent lamps, indicates that City Machine has adequately demonstrated abatement of the following violations from the June 22, 2011 inspection cited in my letter of June 24, 2011, specifically:

1. OAC Rule 3745-52-11 Waste Evaluation
2. OAC 3745-273-13(D)(1) Small quantity handler must contain lamps in proper containers or packaging and containers or packaging must be closed.

Should you have any questions regarding this letter, please contact me at (330) 963-1165.

Sincerely,

  
Neil J. Wastik
