Dear Mr. Lewis:

Re: Construction Storm Water Inspection Permit Number 4GC03028*AG

This letter is written in follow-up to a construction storm water inspection I conducted at City Center Demolition located in downtown Columbus, Ohio on December 1, 2009. The purpose of the inspection was to evaluate your compliance with the General Storm Water Permit Associated with Construction Activities. During the inspection, I noted the following:

Sediment and Erosion Controls:

- The site is currently contained within the area of excavation. Once positive offsite drainage is established, sediment and erosion controls are expected.
- Dewatering associated with dust control must be conducted in accordance with the approved plan.

If you have any questions regarding this letter or my inspection, please do not hesitate to contact me at our Central District Office at 614-728-3844 or email at harry.kallipolitis@epa.state.oh.us.

Sincerely,

Harry Kallipolitis

**Re: Storm Water Inspection at York Gate Estates / Licking County
Permit #: 4GC01526*AG**

Dear Mr. Clemens:

This letter is written in follow-up to a construction storm water inspection I conducted at York Gate Estates located in Licking County on November 19 2009. The purpose of the inspection was to evaluate compliance with the General Storm Water Permit Associated with Construction Activities. During the inspection, the following items were noted:

Sediment and Erosion Controls:

- The site is currently subject to lot development. Please ensure the centralized basin remains modified for sediment controls throughout lot development.

If you have any questions regarding this letter or the inspection, please do not hesitate to contact me at our Central District Office at (614) 728-3844.

Sincerely,

Harry Kallipolitis
Storm Water Coordinator
