**Re: Preliminary Storm Water Inspection at Liquid Box Corp
Permit Number: 4GR00129*AG**

Dear Mr. Johnson:

This letter is written in follow-up to a preliminary storm water inspection I conducted at Liquid Box Corporation in Columbus, Ohio on December 2, 2009. This facility is currently covered under the General Storm Water Permit Associated with Industrial Activities. This preliminary inspection entailed the evaluation of materials and or processes exposed to storm water. Based on my preliminary inspection, the following items were noted:

Tank Farm:

- Large tanks were noted on the northern end of the building which should incorporate secondary containment. Please address in your response the Best Management Practices (BMP's) associated with the storage, loading/unloading and distribution associated with the tank farm.

Loading/Unloading:

- Please describe your loading/unloading protocols for evaluation. Include all Best Management Practices (BMP's) implemented for this process.

Storm Water Pollution Prevention Plan (SWPPP)

- A SWPPP must be developed specific for this site. The SWPPP must include a site map which clearly delineates all storm water drainage patterns. All storm water outfalls/discharges from the site must be identified on the SWPPP. All Best Management Practices (BMP's), current and future must be inclusive in the SWPPP and site map. The

Ted Strickland, Governor
Lee Fisher, Lieutenant Governor
Chris Korleski, Director

Robert Johnson
Liquid Box Corporation
Page -2-

SWPPP must be reviewed and updated on a yearly basis to reflect any changes at this facility. **Please submit the SWPPP to my attention (emailed preferred) for review.** Guidance documents for preparing a SWPPP can be found at:

<http://www.epa.gov/npdes/pubs/owm0236a.pdf>
