Dear Mr. Dillon:

This letter is written in follow-up to a construction storm water inspection I conducted at Anchor 204 Business Park located in Pickerington, Ohio on October 22, 2009. The purpose of the inspection was to evaluate compliance with the General Storm Water Permit Associated with Construction Activities. During the inspection, the following items were noted:

Sediment and Erosion Controls:

- The site remains stable at this time. Please ensure continued compliance with the Storm Water Permit for all future construction activities at this site.

If you have any questions regarding this letter or the inspection, please do not hesitate to contact me at our Central District Office at (614) 728-3844. Follow-up inspections will be conducted to ensure the conditions of the General Permit are continuing to be met.

Sincerely,
