Re: ODOT 161 Phase II / Licking County

Dear Mr. Johnson:

This letter is written regarding the storm water inspection that I conducted of the construction activities associated with ODOT 161, Phase II in Licking County on October 22, 2009. Based on the site inspection and the General Storm Water Permit, the following items were noted:

Sediment and Erosion Controls:

- Major earth disturbing activity continues approximately one mile west of State Route 37. Please continue to maintain all controls in this area, specifically the sediment traps and inlet protection
- I noted the seeding efforts near the intersection of State Route 37. Please ensure all barren areas, specifically the earth disturbing activities noted above, are adequately protected in preparation for the upcoming winter months with permanent and/or temporary cover.

If you have any questions regarding this letter or my inspection, please do not hesitate to contact me at our Central District Office at (614) 728-3844.

Sincerely

Harry Kallipolitis
Environmental Specialist
Division of Surface Water
