**Re: Storm Water Inspection at the Estates at Old Orchard Farm / Licking County
Permit #: 4GC02562*AG**

Dear Mr. Kraner:

This letter is written in follow-up to a construction storm water inspection by Clarissa Lawlis, of the Ohio EPA, at The Estates at Old Orchard Farm located at 2440 Welsh Hills Road in Granville, Ohio on September 16, 2009. The purpose of the inspection was to evaluate compliance with the General Storm Water Permit Associated with Construction Activities. During the inspection, the following items were noted:

Barren Areas: 21 Day Rule:

- Be aware the General Permit states that all barren areas which remain idle in excess of 21 days must be protected from erosion within seven days of the last earth disturbing activities. In addition, erosion protection must be implemented for all areas of final grade within seven (7) days (See Figures 1 and 2).

General Maintenance:

- The sediment basin and perimeter controls for this site appear to be functioning as intended. Please be aware the general permit states that all sediment controls will be inspected and maintained every seven days or within 24 hours of a precipitation event equal to or greater than 0.5 inches to ensure continued effectiveness of the sediment basin.

If you have any questions regarding this letter or the inspection, please do not hesitate to contact me at our Central District Office at (614) 728-3844. Follow-up inspections will be conducted to ensure the conditions of the General Permit are continuing to be met.

Sincerely,

FOR HK
Harry Kallipolitis
Storm Water Coordinator
Division of Surface Water
