**Re: Storm Water Inspection at Harrisburg Pike/State Route 62
Improvement Project**

Dear Mr. Jones:

This letter is written regarding the storm water inspection I conducted at Harrisburg Pike/State Route 62 Improvement Project, located in Columbus, Ohio, on September 9, 2009. The Agency understands that these construction activities are currently covered under the General Storm Water Permit Associated with Construction Activities. Based on the site inspection and the General Storm Water Permit, the following items must be addressed:

Sediment and Erosion Controls:

- During the inspection I noted that the primary sediment control structures were not properly installed. Corrective measures must be taken to ensure inlet protection, in accordance with ODOT's Location and Design Manual, are installed to include lateral supports.
- Be aware the General Permit states that all barren areas which remain idle in excess of 21 days must be protected from erosion within seven days of the last earth disturbing activities. In addition, erosion protection must be implemented for all areas of final grade within seven (7) days.

Ted Strickland, Governor
Lee Fisher, Lieutenant Governor
Chris Korleski, Director

If you have any questions regarding this letter or the inspection, please do not hesitate to contact me at our Central District Office at (614) 728-3844. Follow up inspections will be conducted to ensure the conditions of the General Permit are continuing to be met.

Sincerely,

FOR HK
