**Re: Norwesco, Inc., Fayette County  
Industrial Storm Water Permit 4GR00492\*DG**

Dear Mr. Pauley:

This letter is written in regard to the storm water inspection that I conducted at Norwesco, Inc., located at 2424 Kenskill Avenue, in Washington Court House, Ohio. The inspection was conducted on August 31, 2010, to determine compliance with your industrial storm water permit. Your company makes plastic tanks. I inspected the outside of your facility for compliance with regard to your industrial storm water permit. You stated that unloading of raw materials (plastic beads) and the storage of your final product (plastic tanks) were done outside. I did not note any discharges from your facility to a storm water drain or waters of the state and you appear to be in compliance with your permit. I noted the following during my inspection:

I noticed a very small amount of plastic beads near the unloading area. It did not appear that the plastic beads could be discharged to waters of the state. You stated that the plastic beads are removed by a shop vacuum.

If you have any questions regarding this letter or my inspection, please do not hesitate to contact me at our Central District Office at 614-728-3851.

Sincerely,

Gregory L. Sanders  
Environmental Specialist  
Division of Surface Water
