**Re: Storm Water Inspection at Carmendy Station / Delaware County
Permit No: 4GC02974*AG**

Dear Mr. Carmendy:

This letter is written in follow up to a construction storm water inspection by Abigail Tamkin and Vinod Tujalpuram of the Ohio EPA conducted at Carmendy Station located at 233 South Liberty Street on August 24, 2010. The purpose of the inspection was to evaluate compliance with the General Storm Water Permit Associated with Construction Activities.

It appeared during the inspection that construction activity is nearly completed for this site. A Notice of Termination will be required provided the following requirements are met.

- Vegetation must be established sufficient to control erosion which is measured by a minimum vegetative density of 70%.
- The General Storm Water Permit requires specific post construction water quality treatment for all sites. Guidance regarding the post construction mandates can be found at:
<http://www.epa.state.oh.us/dsw/storm/CGPPCQA.aspx>. Please submit to my attention (email preferred at harry.kallipolitis@epa.state.oh.us) which practice will be installed at this site to ensure compliance with the General Permit. Please include all design criteria with your submittal.
- A Notice of Termination (NOT) must be submitted once the post construction requirements are verified. The NOT form and filing instructions can be found at:
<http://www.epa.state.oh.us/dsw/storm/stormform.aspx>.

Ted Strickland, Governor
Lee Fisher, Lieutenant Governor
Chris Korteski, Director
