Dear Ms. Dobbert-Meloy:

This letter is written regarding a storm water inspection conducted by Abigail Tamkin and Stephen Riely of the Ohio EPA at Rosemore Middle School and Kae Elementary School located at 4735 and 4738 Kae Avenue, respectively, on August 18, 2010. The purpose of the inspection was to evaluate compliance with the General Storm Water Permit Associated with Construction Activities. During the inspection, our staff noted the following:

**Sediment and Erosion Control:**

- At the time of the inspection, The silt fence was partially installed around the perimeter and evidence the remainder of the site would soon be completed. Please continue to install the silt fence and other sediment control measures in accordance with you approved plan.

**Post Construction Requirements:**

- The General Storm Water Permit requires specific post construction water quality treatment for all sites. Guidance regarding the post construction requirements is found at: <http://www.epa.state.oh.us/dsw/storm/CGPPCQA.aspx>. Please submit to my attention (email preferred at [harry.kallipolitis@epa.state.oh.us](mailto:harry.kallipolitis@epa.state.oh.us)) which practice will be installed at this site to ensure compliance with the General Permit.
