Dear Mr. Vance:

On March 5, 2012, this office received information from you stating that a January 2012, total coliform routine sample (#21806) was accidentally submitted under the year 2011. This sample result has been corrected and is now counting up toward your January 2012 compliance.

Ohio Administrative Code 3745-81-31 states that the public water system is responsible for ensuring results of a test, measurement or analysis are reported to the Ohio EPA within the first ten (10) days following the end of the required monitoring period (for example, April results should be submitted to the Northwest District Office by May 10). A reporting violation will be noted for this late result.

If you have any questions, contact this office at 419-373-3007.

Sincerely,

Clayton McKee
Division of Drinking and Ground Waters
