**Re: Construction Storm Water Inspection at Columbus Metro Federal Credit Union  
Franklin County  
Permit Number: 4GC03283\*AG**

Dear Mr. Rieser:

This letter is written regarding a storm water inspection conducted by Abigail Tamkin and Stephen Riley of the Ohio EPA at Columbus Metro Federal Credit Union located on the east side of North Hamilton Road, south of Preserve Boulevard on August 18, 2010. The purpose of the inspection was to evaluate compliance with the General Storm Water Permit Associated with Construction Activities. During the inspection, our staff noted the following issues associated with construction activities at this site:

**Sediment and Erosion Control:**

- The silt fence around the perimeter of the project was not entrenched properly, and must be backfilled in order to properly control sediment. The silt fence around the designated concrete wash-out pit requires entrenchment.
- The barren areas along North Hamilton Road were not protected, and sediment could be seen on the street. Please install controls along the road to minimize off-site sediment transport.
- The site entrance/exit from the parking lot of the adjacent shopping plaza did not appear to have proper controls, as sediment was being tracked out onto the pavement. Please set up proper exit controls to minimize off-site tracking by vehicles.

If you have any questions regarding this letter or the inspection, please do not hesitate to contact me at our Central District Office at 614-728-3844 or email at [harry.kallipolitis@epa.state.oh.us](mailto:harry.kallipolitis@epa.state.oh.us).

Sincerely,

Harry Kallipolitis
