**Re: Construction Storm Water Inspection at Delaware State Park DMRA and Sled Hill
Delaware County
Permit Number: 4GC02589*AG**

Dear Mr. Bopp:

This letter is written regarding a storm water inspection conducted by Abigail Tamkin and Vinod Tujalpuram of the Ohio EPA at the Delaware State Park DMRA & Sled Hill located at 5202 US Route 23 North on July 29, 2010. The purpose of the inspection was to evaluate compliance with the General Storm Water Permit Associated with Construction Activities. During the inspection, our staff noted the following:

Sediment and Erosion Control:

- The site appeared to be temporarily inactive at the time of the inspection.
- There did not appear to be any issues with sediment control at the Dredge Material Relocation Area.
- Please continue with your required inspections ever 7 days or within 24 hours of a rain event greater or equal to half an inch.

If you have any questions regarding this letter or the inspection, please do not hesitate to contact me at our Central District Office at 614-728-3844 or email at harry.kallipolitis@epa.state.oh.us.

Sincerely,

Harry Kallipolitis
Storm Water Coordinator
Division of Surface Water
