Dear Mr. Savko:

This letter is written in follow-up to a construction storm water inspection conducted by Stephen Riley and Abigail Tamkin of Ohio EPA at Hap Cremean WP Lagoon #1 Embankment Mod and SS Imp located at 4250 Morse Road, Columbus, Ohio on August 16, 2010. The purpose of the inspection was to evaluate compliance with the General Storm Water Permit Associated with Construction Activities. The following was noted:

Maintenance

- Currently storm water is contained within excavation of the lagoon.
- Please continue good management practices to ensure the disturbed sediment does not impact waters of the state.
