**Re: Storm Water Inspection at Water Transmission Main to Buckeye Lake
Fairfield County
Permit No: 4GC03099*AG**

Dear Mr. Wood:

This letter is written in follow-up to a construction storm water inspection by Stephen Riley and Elizabeth Schaller, of the Ohio EPA, conducted at Water Transmission Main to Buckeye Lake located at Millersport Road, Lakeside Road, Stateroute 360 & Stateroute 79 on July 27, 2010. The purpose of the inspection was to evaluate compliance with the General Storm Water Permit Associated with Construction Activities. During the inspection, the following items were noted:

It appeared during the inspection that construction activity is completed for this site and all disturbed areas had been permanently stabilized. A Notice of Termination will be required provided the following requirements are met.

- Vegetation must be established sufficient to control erosion which is measured by a minimum vegetative density of 70%.
- The General Storm Water Permit requires specific post construction water quality treatment for all sites. Guidance regarding the post construction mandates can be found at:
<http://www.epa.state.oh.us/dsw/storm/CGPPCQA.aspx>. Please submit to my attention (email preferred at harry.kallipolitis@epa.state.oh.us) which practice will be installed at this site to ensure compliance with the General Permit. Please include all design criteria with your submittal.
- A Notice of Termination (NOT) must be submitted once the post construction requirements are verified. The NOT form and filing instructions can be found at:

Ted Strickland, Governor
Lee Fisher, Lieutenant Governor
Chris Korleski, Director
