Re: Grace Bible Church / Franklin County

Dear Mr. Hadaway:

This letter is written regarding the storm water inspection I conducted of the construction activities at the Grace Bible Church, along Gender Road, in Franklin County, on July 21, 2010. I understand this site is currently covered under the General Storm Water Permit Associated with Construction Activities. Based on my site inspection and the conditions set forth in the General Permit, the following items must be addressed:

Sediment and Erosion Controls:

I noted construction activity at the site. The site needed perimeter silt fence around the active construction area. Please inspect the perimeter fence weekly or after a significant rain event and keep a log of the weekly inspections on-site. Please see attached picture.

I noted a storm water sediment basin had been installed with riser.

I noted that most of the site was stabilized. However, a few areas may need to be re-seeded.

The parking lot had an excessive amount of sediment. Please install controls to prevent sediment from discharging to the parking lot.

If you have any questions regarding this letter or my inspection, please do not hesitate to call me at our Central District Office at (614) 728-3851.

Sincerely,

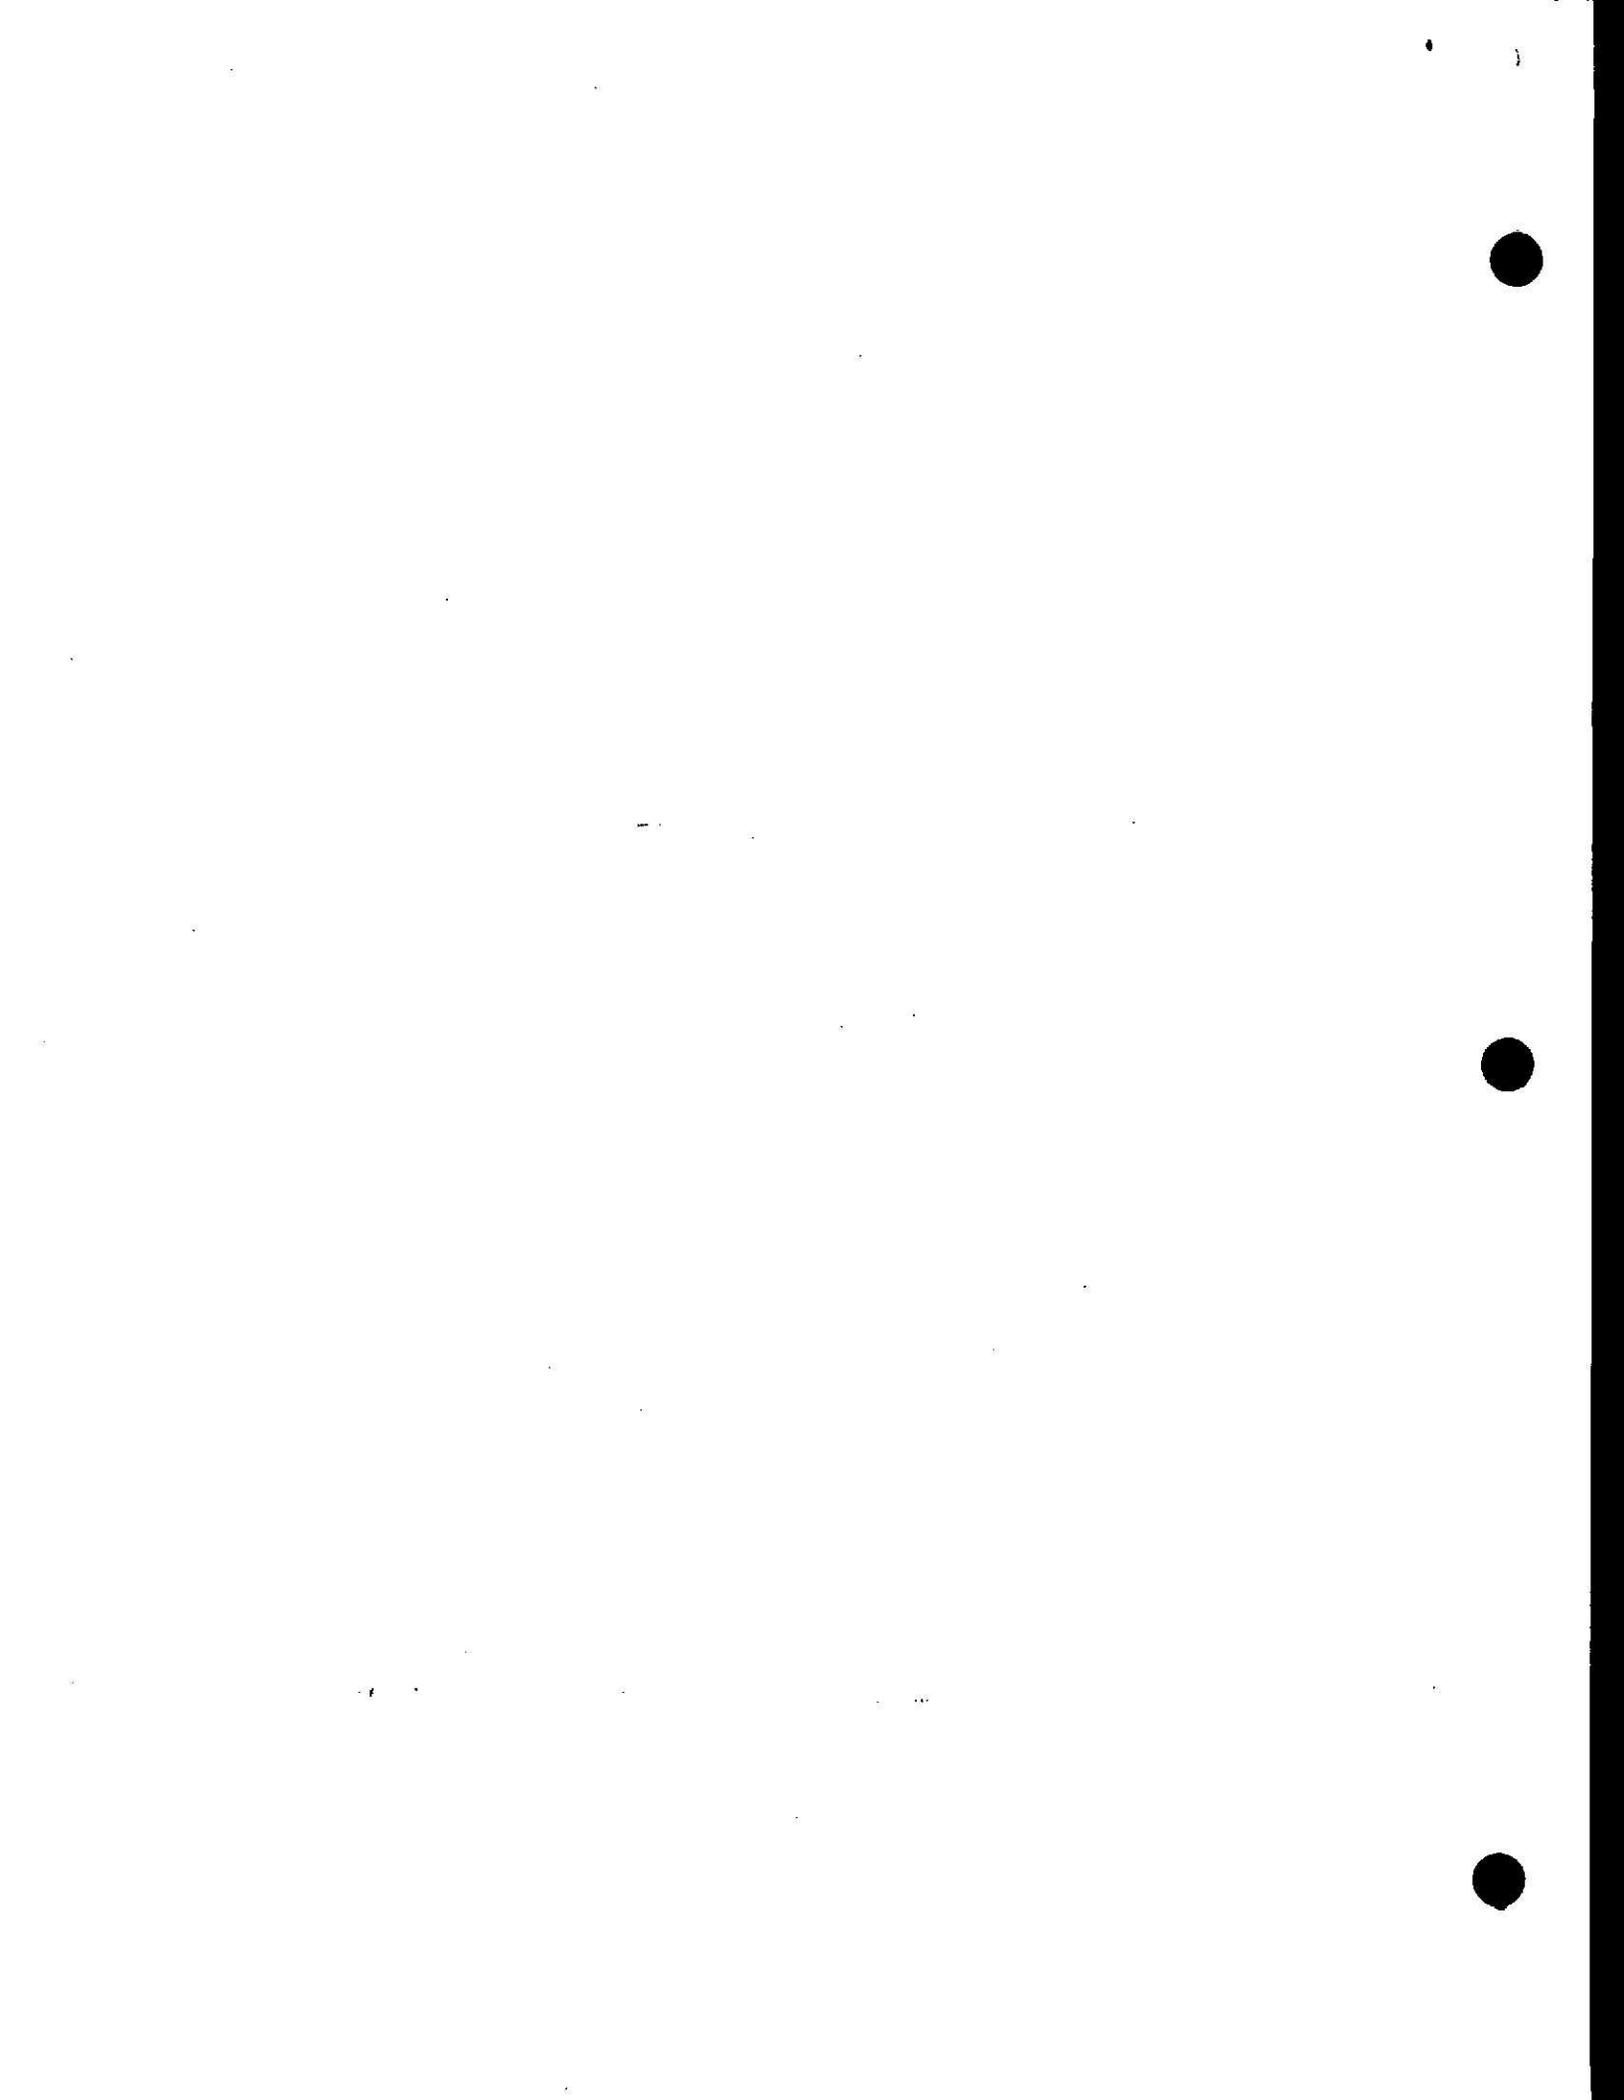

Gregory L. Sanders
Environmental Specialist
