**Re: Construction Storm Water Inspection at Ohio Mulch / Delaware County  
Permit Number: 4GCO00012\*AG**

Dear Mr. Cashman:

This letter is written regarding the storm water inspection; I conducted at **Ohio Mulch** located on **North East of US 42 and Shortcut Road Intersection**, Delaware on July 8, 2010. The Agency understands that these construction activities are currently covered under the General Storm Water Permit Associated with Construction Activities. Based on the site inspection and the General Storm Water Permit, the following items were noted:

**Sediment Erosion Controls:**

- During this investigation, I noted that construction activities have recently commenced. Please ensure all sediment and erosion controls are fully implemented in accordance to your approved plan.
- Please be aware the General Permit mandates specific permanent and temporary stabilization requirements. All disturbed areas which remain idle in excess of 21 days must be protected from erosion within seven days of the last earth disturbing activities. All areas of final grade must be protected within seven days. All earth disturbing activities should be clearly logged in your inspection reports to ensure the 21 day / seven day requirement is not violated.

**Maintenance Requirements:**

- The General Permit requires the permittee to conduct inspections of all sediment and erosion controls every seven days or within 24 hours of a rain event equal to or greater than 0.5 inches. A log of the inspections and resulting corrective actions must be maintained on site available for review. All earth disturbing activities must be clearly documented in your inspection reports to ensure the temporary or permanent stabilization requirements are not violated.

If you have any question regarding this letter or the inspection, please do not hesitate to contact me at our Central District Office at (614) 728-3844 or email at [harry.kallipolitis@epa.state.oh.us](mailto:harry.kallipolitis@epa.state.oh.us). A follow-up inspection will be conducted to ensure the conditions of the General Permit are met.

Sincerely,

Harry Kallipolitis  
Storm Water Coordinator  
Division of Surface Water
