**Re: Armaly Brands, Madison County  
Industrial Storm Water Permit 4GR00054\*DG**

Dear Ms. Holton:

This letter is written in regard to the storm water inspection that I conducted at Armaly Brands, located at 110 West First Street, in London, Ohio. The inspection was conducted on September 7, 2011, to determine compliance with your industrial storm water permit. Your facility manufactures brillo pads, sponges and fabric softeners. The following items were noted during the inspection:

1. The parking areas and driveway was free from staining. It appears that your company uses good housekeeping measures to prevent spillage on to the pavement.
2. Please send me an electronic copy of your storm water pollution prevention plan (SWP3) and a spill prevention control and countermeasure plan when it is updated. The plans should be updated annually or when there is a change in management. My e-mail address is [greg.sanders@epa.ohio.gov](mailto:greg.sanders@epa.ohio.gov).
3. Your facility had a covered truck loading/unloading area. Your facility also had an uncovered rail loading/unloading area which drained to a sump pit. The sump pit is discharged to a storm water drain after it is determined that there are no pollutants or oily sheen in the discharge.
4. There were spill kits located near the loading/unloading areas.

If you have any questions regarding this letter or my inspection, please do not hesitate to contact me at our Central District Office at 614-728-3851.

Sincerely,

Gregory L. Sanders  
Environmental Specialist  
Division of Surface Water
