Re: Suburban Village / Pickaway County

Dear Mr. Nguyen:

This letter is written in follow-up to a construction storm water inspection that I conducted at the Suburban Village located at the corner of Jefferson Street and Station Street on July 13, 2010. The purpose of the inspection was to evaluate compliance with the General Storm Water Permit Associated with Construction Activities. During the inspection, the following items were noted:

Sediment and Erosion Controls:

The site did not have any active construction. No erosion appeared to be leaving the site and the site appeared to be in compliance with the General Storm Water Permit. The site had been stabilized. However, there are still a lot of weeds growing at the site that does not promote good stabilization. The site drains to a sediment pond. Please continue to maintain the site and re-seed if areas start to erode or fugitive dust becomes an issue.

If you have any questions regarding this letter or the inspection, please do not hesitate to contact me at our Central District Office at (614) 728-3851.

Sincerely,

Gregory L. Sanders
