Re: Ashton Crossing / Pickaway County

Dear Mr. Phelps:

This letter is written regarding the storm water inspection I conducted on July 13, 2010, of the construction activities at Ashton Crossing, located in Ashville, Ohio. The Agency understands that these construction activities are currently covered under the General Storm Water Permit Associated with Construction Activities. Based on the site inspection and the General Storm Water Permit, the following was observed or discussed at the site:

Sediment and Erosion Controls:

The site did not have any active construction. No erosion appeared to be leaving the site and the site appeared to be in compliance with the General Storm Water Permit. The site had been stabilized. However, there are still a lot of weeds growing at the site that does not promote good stabilization. Please continue to maintain the site and re-seed if areas start to erode or fugitive dust becomes an issue.

If you have any questions regarding this letter or my inspection, please do not hesitate to call me at our Central District Office at (614) 728-3851.

Sincerely,

Gregory L. Sanders
