**Re: Construction Storm Water Inspection at ATV Green Road and Rider Check Course
Union County
Permit: 4GCD00067*AG**

Dear Mr. Stutz:

This letter is written in follow-up to a construction storm water inspection conducted by Abigail Tamkin and Elizabeth Schaller of the Ohio EPA at 21001 State Route 739 on July 8, 2010. The purpose of the inspection was to evaluate compliance with the General Storm Water Permit Associated with Construction Activities. During the inspection, our staff noted the following issues associated with construction activities at this site:

Sediment and Erosion Control:

- The sediment basin incorporated a modified outlet structure for sediment control. A skimmer was installed to minimize off site sedimentation.
- The silt fence on either side of the site appeared to be installed correctly and was functioning in accordance with the permit. Please exercise special vigilance with the silt fence on the east side of the project, due to the difficulties imposed by the steep slope of the borrow pile.

If you have any questions regarding this letter or my inspection, please do not hesitate to contact me at our Central District Office at 614-728-3844 or email at harry.kallipolitis@epa.state.oh.us.

Sincerely,

Harry Kallipolitis
Storm Water Coordinator
Division of Surface Water
Central District Office
