Dear Mr. Terhune:

On February 15, 2012, the Ohio EPA's Division of Emergency Response and Revitalization (DERR) visited the site to determine compliance of the above facility located at 37701 Stevens Blvd., Willoughby, with Ohio's Cessation of Regulated Operations (CRO) and Ohio's hazardous waste laws and regulations.

On March 16, 2012, we received confirmation that remaining fuel had been removed and properly transferred and that SERC notification was made for materials remaining onsite.

All remaining violations of Ohio's hazardous waste regulations appear to have been abated. You may remove CRO sign postings and discontinue performing the weekly inspections and CRO required security measures.

Should you have any questions, please call me at (330) 963-1146 or email me at: ron.shadrach@epa.state.oh.us.

Sincerely,

Ronald J. Shadrach
District Representative
