**Re: Construction Storm Water Inspection at Refugee Road Elevated Water Tower
Fairfield County
Permit Number 4GC03247*AG**

Dear Mr. Drobina:

This letter is written in follow-up to a construction storm water inspection conducted by Abigail Tamkin and Elizabeth Schaller of Ohio EPA at Refugee Road Elevated Water Tower located at 1111 Gray Drive in Pickerington, Ohio on July 1, 2010. The purpose of the inspection was to evaluate compliance with the General Storm Water Permit Associated with Construction Activities. During the inspection, our staff noted the following issues:

Sediment and Erosion Control:

- Perimeter silt fence appears to be in good repair. Please continue to maintain sediment controls via your required self-inspection reports.
- Please ensure the storm water outlet being routed to the adjacent pond is properly modified to address sediment control.

Post Construction Requirements:

- The General Storm Water Permit requires specific post construction water quality treatment for all sites. Guidance regarding the post construction requirements is found at: <http://www.epa.state.oh.us/dsw/storm/CGPPCQA.aspx>. Please submit to my attention (email preferred at harry.kallipolitis@epa.state.oh.us) which practice will be installed at this site to ensure compliance with the General Permit. Please include all design criteria and calculations in your submission.

Ted Strickland, Governor
Lee Fisher, Lieutenant Governor
Chris Korleski, Director
