**Re: Industrial Storm water Inspection at Glacier Park Neighborhood.  
Permit No. 4GC03280\*AG**

Dear Mr. Goodson:

This letter is written regarding the storm water inspection conducted by Stephen Riley and Vinod Tujalpuram of the Ohio EPA, at Glacier Park Neighborhood located on Brock Road in Plain City, Ohio, on June 28, 2010. The Agency understands these construction activities are currently covered under the General Storm Water Permit Associated with Construction Activities. Based on the site inspection and the General Storm Water Permit, the following items were noted:

**Sediment Erosion Controls:**

- It appears that construction has commenced and the sediment basin was roughed in.
- The sediment basin must be completed and modified for sediment control within seven days from receipt of this letter.
- Please maintain positive flow of storm water from all barren areas to impoundment intended for sediment control.

If you have any question regarding this letter or the inspection, please do not hesitate to contact me at our Central District Office at (614) 728-3844. A follow-up inspection will be conducted to ensure the conditions of the General Permit are met.

Sincerely,

Harry Kallipolitis  
Storm Water Coordinator  
Division of Surface Water
