**Re: Industrial Storm water Inspection at New Plain City Elementary School.  
Permit No. 4GCD00058\*AG**

Dear Dr. Carpenter:

This letter is written regarding the storm water inspection, I conducted at Plain City Elementary School located on Plain City-Georgesville Road and Lantern Lane in Plain City, Ohio 43064 on June 24, 2010. The Agency understands these construction activities are currently covered under the General Storm Water Permit Associated with Construction Activities. Based on the site inspection and the General Storm Water Permit, the following items must be addressed:

**Sediment Erosion Controls:**

- The silt fence on the west end of the project requires maintenance. Please continue to maintain positive flow of storm water to the impoundments intended for sediment control.
- I noted the majority of the site was currently contained within the excavation of the bio-retention facilities.

If you have any question regarding this letter or the inspection, please do not hesitate to contact me at our Central District Office at (614) 728-3844. A follow-up inspection will be conducted to ensure the conditions of the General Permit are met.

Sincerely,

Harry Kallipolitis  
Storm Water Coordinator  
Division of Surface Water
