**Re: Storm Water Inspection of (LIC-16-21.00 PID – 81969)  
State Route 16 Improvements in Newark, Ohio / Licking County  
Permit Number 4GC02949\*AG**

Dear Mr. Johnson:

This letter is written regarding the storm water inspection I conducted of the State Route 16 Improvements at the State Route 16 and State Route 13 interchange in Newark, Ohio on May 26, 2010. The Agency understands that these construction activities are currently covered under the General Storm Water Permit Associated with Construction Activities. Based on the site inspection and the General Storm Water Permit, the following items must be addressed:

**Sediment and Erosion Control:**

- During inspection I noted milling operations associated with this improvement project period. Currently there is minimal land disturbing activity, and as a result sediment erosion controls have yet to be implemented for the site.
- Please ensure all sediment and erosion controls associated with future land disturbing activities are implemented in accordance with your permit conditions.

If you have any questions regarding this letter or my inspection, please do not hesitate to contact me at our Central District Office at 614-728-3844 or email at: [harry.kallipolitis@epa.state.oh.us](mailto:harry.kallipolitis@epa.state.oh.us).

Sincerely

Harry Kallipolitis  
Storm Water Coordinator  
Division of Surface Water
