Re: VFW Post #3424 / Franklin County

Dear Mr. Arcarco:

This letter is regarding the storm water inspection that I conducted at the VFW Post #3424, located along Lockbourne Industrial Parkway, on June 17, 2010. It appears that construction activity is nearly complete at this site. Based on the site inspection and the General Storm Water Permit, the following items must be addressed under the storm water permit.

Sediment and Erosion Controls:

The General Permit mandates that all barren areas which remain idle areas in excess of 21 days be protected from erosion (i.e., seed and mulch). There were several areas at this site that needed to be stabilized or re-seeded. Please see attached pictures.

If you have any questions regarding this letter or the inspection, please do not hesitate to contact me at our Central District Office at (614) 728-3851.

Sincerely,

Gregory L. Sanders
Environmental Specialist
Division of Surface Water
