RE: Alum Creek Village, Franklin County

Dear Mr. Tailford:

This letter is written in response to my storm water inspection of the construction activities associated with Alum Creek Village, located along Alum Creek Drive, in Franklin County. The inspection was conducted on June 2, 2010, to evaluate compliance with your Ohio EPA issued Storm Water Permit Associated with Construction Activities. One home appeared to be under construction during my site inspection. Based on my site observations of the site and the conditions of the Storm Water Permit, the following items were noted.

Sediment and Erosion Controls:

- There was only one home site that had active construction. Controls (straw waddles) were in place at the home site to prevent erosion off-site. The erosion controls needed to be maintained at the construction site. Please see attached pictures.

If you have any questions regarding this letter or my inspection, please do not hesitate to contact me at our Central District Office at 614-728-3844.

Sincerely,

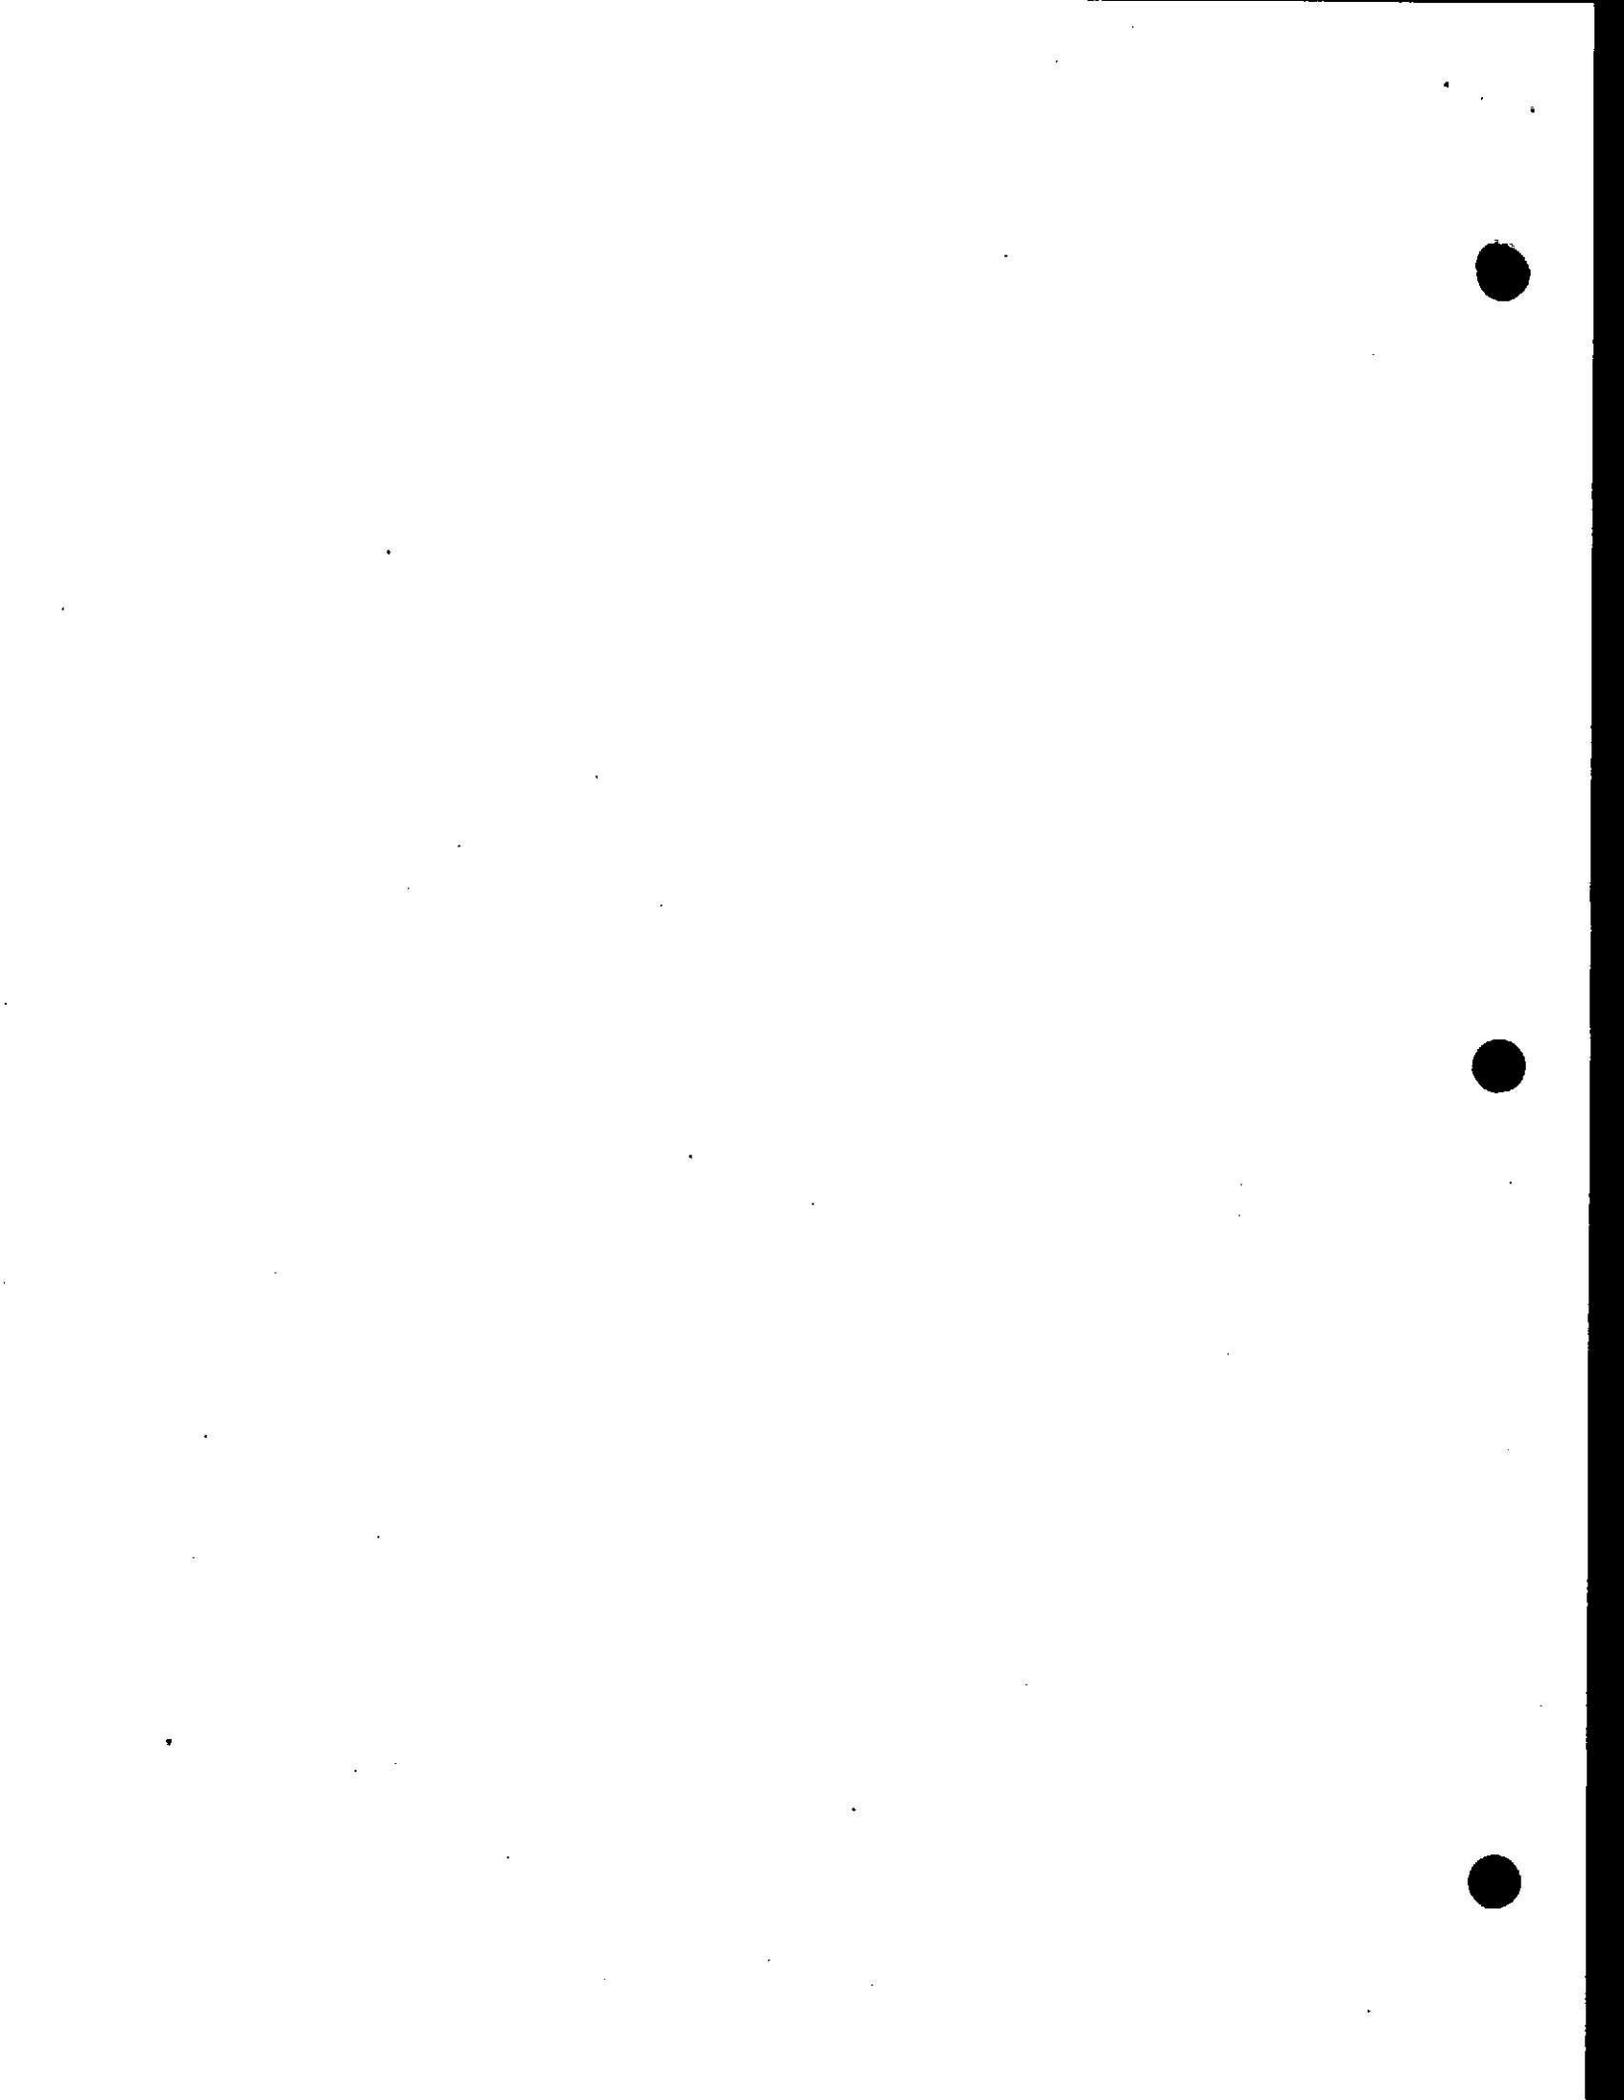

Gregory L. Sanders
