**Re: American Showa – Sunbury Plant, Delaware County
Industrial Storm Water Permit 4GR00278*DG**

Dear Mr. Robinson:

This letter is written in regard to the storm water inspection that I conducted at American Showa – Sunbury Plant, located at 707 West Cherry Street, in Sunbury, Ohio. The inspection was conducted on May 18, 2010, to determine compliance with your industrial storm water permit. Your company make parts for the automobile and motorcycle industry. I did not note any discharges from your facility to a storm water drain or waters of the state and you appear to be in compliance with your permit.

The following items were noted during the inspection:

1. Your company had a combined storm water pollution prevention plan (SWP3) and a spill prevention plan at the facility.
2. Unloading is done at covered docks.
3. There is covered outside storage of your raw material and finished product, which is mostly steel.
4. Your company has a protocol to remove waste water from the diked areas.

If you have any questions regarding this letter or my inspection, please do not hesitate to contact me at our Central District Office at 614-728-3851.

Sincerely,

Gregory L. Sanders
